

Mr. Werner Kirchmann

Hanoi  
Vietnam

## Testimonial

The German Development Service (DED) is one of the leading European development services for personnel cooperation. It was founded in 1963: since then more than 13 000 development workers have committed themselves to improving the living conditions of people in Africa, Asia and Latin America. Almost 1 000 development workers are currently working in approximately 40 countries.

Mr. Werner Kirchmann, born on Sept. 27, 1959 in Germany, was regularly contracted between April 1999 and November 2003 as an IT consultant by the DED office in Hanoi, Vietnam. Mr. Kirchmann supported us on the following areas:

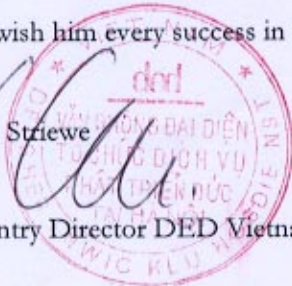

1. DED Vietnam website: Design and implementation of the initial version (in German, English and Vietnamese), regular updates and training of DED office staff members as webmasters.
2. Advice on procurement, installation and configuration of PC hard- and software
3. Local area network design, mail system configuration
4. PC Troubleshooting, user support

Mr. Kirchmann was very professional, timely and straight forward and advised us with great competence. His behavior with respect to our team has always been beyond reproach. His suggestions led to major improvements in our information systems. The quality of his work was excellent and we recommend him very highly.

We wish him every success in his future career and personal life.

Elke Stiewe
