Testimonial

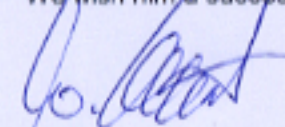

Mr. Werner Klemens Kirchmann, born on Sept. 27, 1959 in Dueren/Germany worked on several occasions as a short-term consultant for the Vietnamese Training Centre for Orthopaedic Technologists (VIETCOT), a German-Vietnamese project of the Ministry of Labour, Invalids and Social Affairs (MOLISA), the College of Labour and Social Affairs (COLSA) and the German Agency for Technical Cooperation (Deutsche Gesellschaft für Technische Zusammenarbeit GmbH -GTZ).

In the last 3 years, Mr. Kirchmann was contracted for the following projects:

- April - May 2000: Initial version of the VIETCOT-website. Mr Kirchmann was responsible for all aspects of this project: Information analysis, design, development, implementation as well as the selection of a local Internet Service Provider and preparation of the service-contract.
- Nov. - Dec. 2000: Development of an application design for a software package (Clinic appointment administration and statistics) for VIETCOT: Information analysis, specification of requirements, functional and database design, tender documents, evaluation of quotations from local software development companies.
- Feb. - March 2001: Re-design and update of the VIETCOT-website.
- Aug. - Dec. 2002: Project management and quality assurance of the development of an Administration and Statistics Software Package. Mr. Kirchmann supervised and coordinated the programming which was done by a local software development company. Furthermore he was responsible for the preparation of the contract with the software development company, the integration test, the documentation of the system and the implementation within VIETCOT.
- March - April 2003: Re-design and update of the VIETCOT-website.

Mr. Kirchmann was always very professional and advised us with great competence. His suggestions led to major improvements in our information systems. He finalized all projects to our fullest satisfaction and always within the agreed time and budget. The quality of his work was excellent and we have no hesitation in recommending him.

We wish him a successful future

Wilfried Raab

Chief Technical Adviser - GTZ
